

BaCo News 02/2014

We've got a new digital printing machine!

Our new and innovative digital printing machine, which is unrivalled in the market, offers unbeatable benefits:

- Excellent print quality at high resolution
- Outstanding heat and abrasion resistance
- No press tool or printing plate costs
- Short delivery time and greater flexibility
- Commercial printing also in small volumes
- No additional costs for multi-coloured printing
- Solvent-free and low-odour colours

Our machine prints:

- at a resolution of 720x360 dpi.
- your subject in a 4-colour set with CYMK and white.
- rollers with a print width of up to 330 mm.
- on substrates such as polyester, aluminium and paper.
- at the customer's request, security features to protect your products on the rollers or the aluminium seal
- with an in-line inspection system to quickly detect errors
- with low-migration inks that can also be used for foodstuffs
- conformity with the Framework Directive 1935/2004/EC and the Swiss Framework Directive SR 817.023.21

In order to calculate printing costs, please send a PDF copy of the artwork with a minimum resolution of 300 dpi. For editing your image file, we charge a one-off fee of € 50.00/subject.

We can also provide you with machine proofs at a cost of €100.00.
